### Loading Instructions for SFA Jeopardy

Follow these steps to load the files for SFA Jeopardy to the computer you will be using for the Front to Back training sessions:

The steps for adding the Jeopardy software onto your computer are to create a new folder in your C:\drive and load a zipped file into the new directory. A "quizgame folder must be created because of the way the program is written.

1. Open Windows Explorer
2. Click once on the C:\ drive in the left hand window pane
3. Select File, New Folder from the menu bar
4. A new folder will be created on the C:\drive and will be displayed in the left hand window pane, change the folder's name to **quizgame**. (quizgame is all one word and lowercase.)
5. Load the floppy disk in the A: drive
6. Click on the A:\drive in the Windows Explorer left hand pane and, in the right hand window pane, double click the file **SFAJeopardy**.
7. This dialog box will appear:

8. Click Unzip and the files will be unzipped to the **C:\quizgame** file on your computer. When the files are Unzipped, you will get this message:

**The files which will be unzipped are:**

**Quizgame.exe**

Dib.ucd

Buttons.txt

round1.txt

Quizgame.bmp

9. Click "OK"

10. Click “Close” to close the WinZip Self-extractor
11. In Windows Explorer, open your **C:\quizgame** folder and in the left hand pane, double click the **Quizgame.exe** to launch the Jeopardy program
12. The game screen will appear
13. If the game fills the entire screen go to step 27
14. If the game screen does not fill up the entire screen, you will need to temporarily change the Windows Desktop size setting go to step 15
15. Minimize any windows you have open to get to the Windows Desktop
16. Right click on an empty area of the desktop
17. Select “Properties” in the dialog box
18. Click on the Settings tab in the Display Properties window
19. Find the slide bar in the Desktop area section of the window
- 20. Make note of the starting size of the Desktop area \_\_\_\_\_**
21. Click and hold the left mouse button on the slide bar and slide the bar to the right until the 640 x 480 setting is displayed.
22. Click OK
23. A warning box will appear telling you about the change you have selected. Click OK
24. A message box will ask if you want to keep the setting, Click Yes
25. The Jeopardy game will now fill the screen.
26. After the game is completed, follow steps 14 through 22, selecting your original desktop area in step 19, to restore the original settings
27. Send the image to the projector and begin the game
28. Nothing is written to this file during the game so it will be fresh each time it is run
